$250 per person for Non-Members
(price includes workbook and refreshments)

INSTRUCTOR: Steve Dewey, All-Lifts, Inc.

PAYABLE TO NORTHEASTERN SUBCONTRACTORS ASSOCIATION, INC.

Moving large, heavy loads is crucial in today's construction industry. Overhead lifting is a special event and risk is created every time a load is lifted off the ground. Rigging and lifting operations affect virtually all construction trades, and each load that requires rigging has unique properties that can range from the simple to the complex. OSHA defines a qualified rigger as a person that possesses a recognized degree, certificate or professional standing, or has extensive knowledge, training and experience and can successfully demonstrate the ability to solve problems related to rigging loads.

Following the presentation of several basic 8-hour Qualified Rigger courses held several years ago, this course serves to educate in not only the basic skills, but also the more advanced. It is designed for individuals involved in rigging and handling suspended loads in construction, manufacturing, utilities and various environments that must adhere to OSHA regulations. By using hands-on table top rigging training aids and audience response software that allow response and scoring of attendees throughout the course, audience participating is increased Specific areas to be covered include:

*** Rigging Today** (New OSHA Regulations; Qualified Rigger Requirements and Qualified Signal Person Requirements)
*** Rigging Practices** (Sling Inspection Competition – hands-on; Effects of Angular Loading; Effects of Small D:d Ratio; Effects of Shock Loading)
*** Evaluation of the Use of Rigging Gear * Load Control * Load Stability and Center of Gravity**
*** Rigging for Load Stability *Finding the Weight of the Load *Sling Tension Calculation**
*** Crosby Tools *Lifts Planning *Planning for Load Handling Activities** (Scope; Definitions)
*** Plan Categories** (Standard Lift Plan; Critical Lift Plan) ***Load Handling Considerations**
*** Personnel and Responsibilities *Standard Lift Plan *Critical Lift Plan**
*** Lift Data Sheet** (Example Data Sheet; Completing the Lift Data Sheet)

Attendees will receive a certificate of attendance, Crosby 7A work book for reference, and a 16 panel pocket guide.
